

## Wellness Program 2014

Our wellness program includes two plans designed for horses with varying needs: Basic and Comprehensive. Thorough examination, essential vaccinations, motorized dentistry and laboratory tests are included in bundled, discounted plans. These plans allow you to lock in a discounted rate for preventative care services and procedures, ensuring your horse gets the best possible care throughout the year.

Once enrolled, the included services may be scheduled anytime during the 2014 year. To enroll, please see the next page for the application, terms and conditions.

**Basic Plan:** This plan is designed for the backyard pleasure horse, and it covers essential vaccinations and two fecal egg counts. A full physical exam with nutritional and parasite control consultation is included, as well as an ophthalmic exam.

**Comprehensive Plan:** Routine motorized dentistry with sedation is included with this plan, along with all of the preventative care listed in the basic plan. Annual dental exams are extremely important for horses young and old to help ensure the animals' comfort and performance.

**Included with Enrollment:** Receive a \$10 coupon good for anything except call fees. This coupon does not expire; you can collect them year to year with continuous enrollment in our wellness program.
